(71) Applicant: **EASTMAN KODAK COMPANY**
Rochester, New York 14650 (US)

(54) **Solid-state display with reference pixel**

(57) A system for controlling a digital image display device having addressable pixels on a substrate, the pixels having performance attributes, and a control circuit for controlling the pixels of the display device, including: a reference pixel located on the substrate and connected to the control circuit, the reference pixel having the same performance attributes as the pixels in the display; a measurement circuit connected to the refer-

ence pixel to produce an output signal representative of the performance attributes of the reference pixel; an analysis circuit connected to the measurement circuit to receive the output signal, compare the performance attributes with predetermined performance attributes, and produce a feedback signal in response thereto; and the control circuit being adapted to receive the feedback signal and control the digital solid-state display device in response thereto.

FIG. 1

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 01 20 1792

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
